## Exciting New Products

Admiral Linen & Uniform Service offers great hand care products from the R.L. Williams Company:

**Hand Sanitizer**

### Instant Hand Sanitizer

Our sanitizer is a one-step foaming sanitizer that kills 99.9% of the common germs that cause most of the everyday illnesses that are responsible for lost time and production. It's waterless, FDA approved and alcohol free.

### Dispenser

The dispenser works for both products (hand sanitizer and foaming soap). It's made of durable high-impact plastic and features a push dispenser. The dispenser is also ADA approved. It dispenses 1 ml per push for liquids and .5 ml per push for foam soap.

**Foaming Soap**

### Antibacterial Foam Soap

Our mild and effective hand cleaner contains the germicide PCMX. It's registered with the EPA and it's FDA approved. The 1000 ml container provides over 2000 pumps per cartridge. The soap is biodegradable and has a floral scent.

### Handmaster Industrial Soap

Don't let the pleasant citrus scent fool you! The Handmaster is a pumicized soap designed for industrial hand cleaning. Just rinse with water or wipe off with clean towels.

It's also the easiest soap dispenser available. Just load the soap and the dispenser's serrated opening automatically punctures the container's seal. The measured plunger means you get enough soap with every push to do the job!

## The Complete Restroom Package

### Center Pull Towels

The Center-Pull dispenser features an adjustable nozzle with 22 settings, ensuring 1 to 2 towels per pull – *forever!*

The “hands-free” design of the Towel-Pro Center-Pull Dispenser means maximum sanitation. Users pull off the towels they need and never touch the dispenser.

### Tissue Pro Tissue & Dispenser

Constructed of ABS resin, the Jumbo Tissue Dispenser is built for durability and ease of use.

Load two Jumbo tissue rolls in, then simply slide the inner arm over when it's time to begin using another roll. Cuts routine maintenance time in half! Each roll contains 1,000 2-ply sheets. With 2 rolls per dispenser, refills become a simple task!
